

SESSION 7-2. Gaps in food  
composition data generation,  
compilation and uses: in search of  
solutions

Issues related to data generation:  
Heather Greenfield - *Australia*

Issues related to data generation  
Heather Greenfield - *Australia*

- \* Good foundations now achieved:
  - Methods
  - SRMs, quality control
  - Analytical networks and collaboration

Issues related to data generation

Heather Greenfield - *Australia*

- \* Maximising benefit from diverse food projects, turning dollars into data

Data publication

- \* Data generation versus research or data generation with research?

## Data quality

- \* Journals – common standards?
